## RACE RIOTS BREAK OUT IN CHICAGO

### 5,000 ANGRY WHITE MEN THREATEN TO STORM CHURCH

WHERE NEGROES FLED TO ESCAPE MOB—BLACK BELT IN STATE OF SIEGE

ONE MAN KILLED AND EIGHT INJURED—POLICE HAVE SITUATION IN HAND

(United Press)

Chicago, Sept. 21.—Chicago's black belt was in a state of siege today with two police battalions on duty following race disturbances last night which caused the death of one man and serious injury to eight.

The outbreak starting when a negro wielded a knife and nearly decapitated Thomas Barrett, white, had reached a climax with five thousand angry whites milling about St. Gabriel's Catholic church demanding the surrender of three negroes hidden within. Patrolmen held back the mob with drawn revolvers while Father Thomas M. Burke quieted the race hatred and the three negroes were taken away by detectives.

The disturbances continued in other parts of the black belt until early this morning when police had the situation in hand and feared no further trouble.

Barrett was attacked after he had abused three negroes on a street corner, knocking one of them down, according to the police version. A crowd started in pursuit of the colored men. Many joined in the chase. The negroes had outdistanced the mob when the church was reached. One of the blacks hid in the belfry, another in the confession and the third hid under a pile of cassock in the sacristy.

A boy who saw the negroes enter the church told the crowd. The mob was threatening to pour into the church when Burke appeared and quieted them by appeals that the police be allowed to act. Later when they again became threatening he made another appearance and told the mob the police had taken the negroes away.

The mob broke up, but small outbreaks continued despite a heavy guard of patrolmen during the night.

A street car bearing negroes was attacked and windows smashed. Other minor disturbances occurred.

Packing Companies Appeal to Police

Chicago, Sept. 21.—Packing companies employing both whites and colored help, today appealed to police for additional guards to prevent outbreaks, due to the tense feeling following last night's race riot on the south side.

Although no new outbreaks were re-

### FORD CAR PRICES REDUCED TO PRE-WAR FIGURES

REDUCTION WILL AVERAGE \$142 A CAR—COMPANY HAS 146,000 UNFILLED ORDERS

(United Press)

Detroit, Mich., Sept. 21.—Henry Ford today announced that prices on all models of his automobiles have been reduced on an average of \$142 a car, bringing them practically to pre-war prices. The Ford company has 146,000 unfilled orders. In making the announcement Henry Ford said lack of material which is stored in many parts of the country is impeding production and that slashing of prices is the only way that material can be forced on the market and prevent conditions brought about.

### CAMPAIGN EXPENSE COMMITTEE WILL CONTINUE SESSIONS

GERMAN AND SINK FEIN PROPAGANDA WILL BE INVESTIGATED—ALSO OTHER MATTERS

L. C. MARTIN, (United Press Staff Correspondent.)

Washington, Sept. 21.—Alleged German propaganda in the United States will be investigated by the senate committee's inquiry into campaign funds which will resume session here tomorrow.

### Scotch Communists Brag They Can Raise 3,000 Red Guards

(United Press)

London, Sept. 21.—Sovietism came close to English borders today, according to the Star. A dispatch in that paper said Scottish communists bragged they could assemble three thousand red guards at Blantyre alone in a threat to seize coal mines.

### RATIFIES SUFFRAGE AMENDMENT AGAIN

(United Press)

Hartford, Conn., Sept. 21.—The Connecticut legislature today again ratified the federal woman's suffrage amendment. This action was taken because the legality of the first vote of ratification at a special session last week was questioned.

Although no new outbreaks were re-

Admiral Sims and Family at Charity Fete

### GUERRILLA WARFARE REPORTED THROUGHOUT IRELAND

(United Press)

Dublin, Sept. 21.—Increasing frequency of clashes between Sinn Feiners and government forces indicated resumption of guerrilla warfare. Sporadic fighting between soldiers and Sinn Feiners took a death toll yesterday when Inspector Burke of the police was shot dead from ambush. His brother, Sergeant Burke, was seriously injured. In the heart of the city a mass of republicans descended upon a small party of soldiers. Fierce fighting resulted. Two soldiers and two civilians were wounded. There were minor clashes throughout the city.

### Government Pays Railroads Sums Due Under Guarantee Clause

(United Press)

Washington, Sept. 21.—Approximately \$238,000,000 has been paid by the government to the railroads under the guarantee clause of the Esch-Cummins transportation law, it was learned today.

Payment must continue until the roads receive approximately \$690,000,000, it was estimated.

### HERR HEINZE

A new and hitherto unpublished photograph of Herr Heinze, German minister of justice.

### ELIMINATION OF PROFITEERS BY MORAL FORCE

IS URGED BY COX AT LOS ANGELES—ATTACKS PRESS FOR SUPPRESSING NEWS

HERBERT WALKER

(United Press Staff Correspondent.) Los Angeles, Cal., Sept. 21.—Elimination of profiteers by "moral force"—a huge revolving fund placed in the hands of the president by congress with authority to purchase supplies to prevent extortionate prices—was suggested by Governor James M. Cox here today.

Chairman Kenyon hopes to conclude the present hearings Saturday. The committee will watch expenditure of campaign funds throughout the election and investigate the way money is spent, if necessary, Kenyon indicated today.

So far as Governor Cox's slush fund charges are concerned, Kenyon said, two more witnesses will end the testimony. These are Wm. Boyce Thompson of New York, chairman of the republican ways and means committee, and Wm. B. Barnes, Jr., of Albany.

The committee has summoned the chairmen of the republican and democratic state central committees of New York and New Jersey to tell what fund raising is being done there and similar testimony may be taken with respect to other states. Activities of the liquor interests will be gone into.

Cox's view for such purchases which would be made by the "moral force" of the president having such power, would eliminate profiteering and would be "like the musket behind the door," he said.

The democratic nominee now is directing an attack on that part of the republican press which "taking orders from the senatorial oligarchy in suppressing news of this campaign."

"I don't care what they say about men in editorials, but I challenge them to present news of both sides of the chase to the jury of the American people," he said.

Cox is telling his audiences, in discussing the treaty, he is willing to accept Senator Hitchcock's reservations. These he claimed, gave reassurance of protection of every American's interest without injury to the pact.

### Resolution Reported Again Expelling The Socialist Members

(By United Press)

Albany, N. Y., Sept. 21.—The assembly judiciary committee today, by a vote of seven to six, reported the resolution which provides for the ousting of five socialist members who were barred from the legislature last spring but re-elected in special election.

The resolution was reported without recommendation thus passing the responsibility on to the assembly.

### Crowds Out to See Expected Explosion

(United Press)

New York, Sept. 21.—A nervous, expectant throng lined the streets along the customs house here at 1:30 today—30 minutes before the hour set for an explosion predicted yesterday on a postcard addressed to Customs Collector Edwards. The building, except for extra guards, showed no signs of expected trouble.

### TROPICAL STORM APPROACHING THE TEXAS COAST

GOVERNMENT BUREAUS ARE CO-OPERATING TO PREVENT GREAT DAMAGE BEING DONE

(United Press)

Houston, Texas, Sept. 21.—A tropical storm raging over the coast of the Yucatan peninsula and inward from the Gulf of Mexico was nearing the Texas coast early today.

The entire Gulf Coast from Louisiana to Brownsville hoisted storm warnings. Wireless messages from a steamer off Georgia and Mexico at midnight said they had encountered a sixty mile gale and heavy rain which apparently was the advance of the storm.

Corpus Christi dispatches said the tide at Harbor Island was slightly above normal and was slowly rising. Railroads at Galveston began moving freight from the island in to mainland in preparation for the storm.

Corpus Christi dispatches said the tide at Harbor Island was slightly above normal and was slowly rising.

Railroads at Galveston began moving freight from the island in to mainland in preparation for the storm.

Despite precautions taken it was feared shipping and water front property along the Texas and Louisiana coasts may be damaged because of the sweeping approach of the storm.

Strike Texas Coast in the Morning

San Antonio, Sept. 21.—The hurricane raging in the Caribbean is expected to strike between Galveston and Brownsville, according to Major Allen Buell, who expects the storm to hit tomorrow morning.

### MANGLE EXPLODES KILLS ONE GIRL AND INJURES FOUR

(By United Press)

Faribault, Minn., Sept. 21.—One girl was killed and four injured when a mangle exploded in the laundry at the state school for feeble-minded shortly before noon today.

Miss Cora Nelson, 24, of Waseca, was instantly killed by pieces of the big two ton mangle when it blew up.

Those seriously injured were Theresa Hartberg, 27, committed from Cloquet in 1905; Mae Hagen, 17, an orphan; Minnie Gardner, 24, of Minneapolis; Hazel Anderson, 17, an orphan. All four were badly burned by steam and were cut by pieces of iron and steel.

An ironing class not far from the mangle, was thrown into a panic when the explosion occurred. None of the girls in the class were injured, however.

The mangle cylinder is one hundred inches long and thirty inches in diameter. It was partly filled with water from condensed steam. When they turned the big eighty pound press onto the mangle the jar of the steam weakened the cylinder and it is believed caused it to crack and blow up. Pieces of cast iron and steel from the big cylinder were hurled twenty-five feet.

### Corn Below \$1 First Time in Three Years

Kansas City, Mo., Sept. 21.—For the first time since 1917, corn sold below \$1 a bushel here when December delivery dropped to 93¢. Increased country offerings and continued warm weather to mature the big crop before frost, was given as reason for the decline.

### CENSUS FIGURES

(United Press)

Washington, Sept. 21.—The census bureau today announced the following 1920 population results:

Mower county, Minn., 25,993, an increase of 3,353, or 14 per cent.

Bowman county, N. D., 4,768, an increase of 100, or 2.1 per cent.

LaMoure county, N. D., 11,564, an increase of 34, or 7.8 per cent.

### MISS MARY O'REILLY

MISS MARY O'REILLY

### REPUBLICAN DRIVE TO WIN LABOR FOR HARDING IS ON

LABOR MEN AT MARION FOR CONFERENCE LEAVE TO BEGIN OFFENSIVE

RAYMOND CLAPPER

(United Press Staff Correspondent.)

Marion, Sept. 21.—The republican drive to win organized labor over to Warren G. Harding was fully under way today. A number of labor men have been in Marion for conferences with the candidate. Each has gone away with the announcement that he intends to work for the election of the republican national ticket. This apparently was the republican counter offensive against efforts of Samuel Gompers, president of the American Federation of Labor, to win labor votes for Governor Cox.

As some labor leaders now outlined their estimates of the situation to Harding, labor is not so dissatisfied with the present conditions as it is alarmed over what may come.

"I find that miners, who are republicans, are going to support Harding, and those who are democrats will support Cox," said W. L. James, representing the American Mine Workers of Illinois. He has been on a stump tour for Harding.

### FRENCH PRESIDENT RESIGNS HIS OFFICE

ACCOUNT HEALTH

Premier Millerand enthusiastically acclaimed as

THE NEXT PRESIDENT

(United Press)

Paris, Sept. 21.—Premier Alexander Millerand was acclaimed enthusiastically as the next president when he read the resignation of President Paul Deschanel to the Chamber of Deputies today.

All the deputies arose to their feet to join in the ovation.

President Raoul Peret of the chamber, briefly expressed sorrow of the nation that Deschanel's health would not permit him to retain his office. He reviewed Deschanel's public service, engrossing his work.

Aristide Briand is looked upon as the most likely successor to Premier Millerand.

### POLES CLAIM SMASHING SUCCESSES IN GALICIA

(United Press)

Warsaw, Sept. 21.—Smashing successes in Galicia were claimed in the Polish communists today. Dubno, northeast of Lemberg, was occupied after hard fighting, the report said.

Everything Made of Paper, Suits and All

Here is the real thing in paper clothes. They are displayed in a brief case, a knitting bag and a tablecloth also made of paper. These and other imported articles made of paper are to be offered for inspection to clothing and textile manufacturers throughout the country.

## THE WEATHER

Forecast for next 24 hours:  
Minnesota—Unsettled with probably thunder showers this afternoon or tonight, cooler in the west portion tonight.

## LOCAL NEWS NOTES

Father Crean of Pine River was in the city today.

For spring water phone 264.

Miss Gertrude Smith returned to Minneapolis yesterday.

George Trent returned from Duluth on the morning train.

Mr. and Mrs. I. C. Strout have returned from the Twin Cities.

Mrs. C. E. Giles and son Richard left for Duluth on the afternoon train.

Mrs. A. F. Sorenson went to Chicago this afternoon to visit relatives.

Crystal spring water, \$1.50 month.

L. Bourassa, Telephone 13.

Mr. and Mrs. Sherman Tower, of Staples called on friends in Brainerd Tuesday.

## NASH

The 1921 Nash Five Passenger Touring Model with Cord Tire Equipment at \$1,835.00 delivered in Brainerd is the best buy in the 6 cylinder class today.

MOTOR SALES COMPANY  
903 Laurel St.

Miss Anna Mahlum, and not Miss Edna Mahlum, left for her vacation yesterday.

For Sale—Dodge touring car in good condition, \$750. 1504 Pine St., S.E. 9313

E. O. Webb returned from his cottage after a hunting trip and had in his possession 17 ducks.

Clifford Ebner and Paul Smith are leaving for the University of Minnesota this week, probably Friday.

R. M. Sheets drove up from St. Paul last evening arriving in Brainerd in the early hours of the morning.

Men wanted for paving work. Free ride to and from job. Apply McCree. Moos & Co. office, City Hall. 8914

Mr. and Mrs. Thomas Brisbane have returned from a visit at Waseca and St. Paul with friends and relatives.

Miss Edna Godrich and company, including the business manager, F. Chapman, left for Bemidji on the afternoon train.

Jewett Peterson and Clifford Ebner got eight mallards at Buffalo Lake, 8 miles west of town. They report the shooting good.

F. C. Lang, testing engineer of the State Highway department, was in the city Monday afternoon, looking over two paving jobs on Oak street.

The report comes in that yields through this section are far beyond expectation, with the exception of potatoes which are about half a crop.

Two cars of implements are being unloaded for the tractor demonstration. John Woodhead has made hotel reservations for about 30 out-of-town guests.

Black silk sweaters are stylish and neat. We can make your old sweater do by dyeing it black. Brainerd Model Laundry Co. 9312

The Florence Rebecca Lodge had a good meeting last evening. One candidate was initiated and an excellent lunch was served. Ten applications for initiation were received.

Six mechanics, who will handle tractors at the Fordson tractor demonstration on Friday, Sept. 24, arrived in town on Monday evening from the Ford factory in Detroit.

Westinghouse Cozy Glow Electrical Radiators, fine for cool mornings and evenings for bathroom and bedroom. Brainerd Electrical Company. Every thing Electrical. 9415

From the top of the new water tower Brainerd looks like a beautiful park, the many trees of the city contributing to the creation of that effect.

Miss Florence Lindquist, an army nurse from Baltimore, who is a sister of Mrs. F. R. N. Anderson of the Anderson Studio, with whom she has been visiting, left today for northern Minnesota to visit relatives.

We guarantee to please you in our dry cleaning department. If you are not satisfied—don't pay. Brainerd Model Laundry. 9312

The new highway between Crosby and Deerwood on the north side of Serpent lake, is now in good condition. The grading of this road is

practically completed. Brainerd people traveling by this road between Crosby and Deerwood, will find an excellent highway.

Mayor Frank Little and City Attorney D. H. Fullerton, climbed to the giddy height of the new water tower yesterday. Both of the gentlemen report that for some time after their descent they felt that they were going down. Nevertheless, both were present at the meeting of the city council.

That expensive rug will not wear well unless you keep it clean. Our rug cleaning method is thorough—cleaning top and bottom. Brainerd Model Laundry. 9312

Mrs. Frank Flecker of Pierz has returned from a visit at Brainerd. Accompanied by her guests, Mrs. Fred Riecke and children and Miss Frances Staub all of Brainerd, she motored from Little Falls to her home, Saturday afternoon.—Little Falls Transcript.

Lists of the names of the qualified electors of each ward are being prepared for posting. All those whose names do not appear on the posted lists, including the ladies, will be expected to have their names added to the list on Oct. 26th, 1920 if they desire to vote in November.

Over 400 automobile owners of Crow Wing county are cutting the high cost of motoring by using Diamond Tires. Herbert Peterson, Local Distributor, 617 Norwood street.

811f

**Little Money Saver Says:**

There is reason to believe that if all the worth-while items of news were printed the Dispatch would be read with compelling interest. This seems to be proved by the fact that when the reporter asks for news and some begins to tell it of the other fellow, he immediately says: "Don't you care?" And as he doesn't dare the reader is robbed of the thrilling incident.

## SIMPLE BEAUTY RULE.

Women should take five minutes a day from work and lie flat on the back, all muscles relaxed, with eyes closed. It will be found a wonderful preserver of health, beauty and strength, according to the advice of a health expert.

## COUNTY ENGINEER BUSY

Six Grading and Two Paving Jobs Being Supervised by the Force

The office of the county engineer is a busy place at this time. Six grading contracts and two paving jobs are under way. It is expected that the grading under way will be completed this fall. The paving is going forward satisfactorily at present, and the material for this work is arriving in sufficient quantities to keep the work moving. How much of this work can be completed this year will depend upon the steady flow of materials and the condition of the weather.

## BASE BALL BUNTS

Base ball fans are having a great time watching the race between Cleveland and Chicago. Both are winning consistently, with Cleveland a little ahead of the race. The season is drawing to a close and from now on these teams will be worth watching. Which will win?

## COUNTY FAIR THE BEST EVER

Had the Largest Exhibition and Prize List in its History—Over \$6000 in Prizes

### POULTRY SHOW IN CONNECTION

Four Farmers Clubs of Crow Wing County All Had Very Fine Exhibits

The Crow wing county fair held at Pequot the 15, 16 and 17 had the largest exhibits, displays and shows as well as prizes given by the association in the history of the fair association. The poultry show in connection with the fair proved a valuable and interesting adjunct and a forerunner to larger and better poultry shows for Crow Wing county. It demonstrated that good poultry is being raised in this county but also showed that there is room for a large amount of improvement in the poultry business line. Poultry, on most farms should be a valuable and important asset instead of a side issue to be neglected for details of other farm activities.

Four farmers' clubs put on great exhibits, each club booth being a small fair in itself, each booth rivaling the main fair displays both in variety and quality of produce shown. The Twin Lakes farmers clubs took first prize scoring 1006 out of a possible 1250 points; The Nisswa Community club 2nd with 887 and the Pelican Better Farming club 3rd 884 and The Progressive Farmers club 4th 843. The large canning exhibit with the slogan "Can You Can, We Can" drew the attention of the fair visitors.

Another new feature of the 1920 fair was the Boys and Girls club exhibits, poultry, calves, pigs, potatoes, garden displays, bread baking, canning, and garment making clubs vied with each other in excellence and size of display. County Club Leader J. W. Taylor deserves unestimated praise for the manner with which he handled the club work in this county for the past year. In the calf club—Helen Davis placed her calf first in the Guernsey breed; Melvin Young of Merrifield was second. John Eines took first in the Holstein breed, with his younger brother placing second. In the sweepstakes Helen Davis won over all breeds and also a free trip to the St. Paul Livestock show this winter.

Nearly 3000 entries were made at the fair this season and prizes awarded amounting to over \$6000 making the largest and most successful ever held in Crow Wing county.

#### Ladies' Aid Society

The Presbyterian Ladies' Aid society will be entertained on Wednesday afternoon by Mesdames Weideman and VanAlstine in the church. An urgent request is made that all members be present at this meeting as there are important matters to be considered. Everybody come and bring a friend.

**First Congregational Ladies Aid**  
The meeting of the Ladies Aid of the First Congregational church announced for tomorrow, is postponed until Wednesday of next week, when it will be held at the home of Mrs. A. E. Losey, at which time the annual meeting and election of officers will take place.

**Peoples Congregational Ladies Aid**  
The Ladies' Aid of the Peoples Congregational church, will be entertained at the church parlors Wednesday, Sept. 22, by Mrs. A. P. Drogseth and Mrs. O. J. Henning. All members are urged to be present as important business will be discussed. Visitors are cordially invited.

**Parent-Teachers Meeting**  
The Parent-Teachers Association will meet tonight at the Lowell school at 7:30. All interested are urged to be present.

**Episcopal Guild**  
The Ladies Guild of the Episcopal church will meet Thursday afternoon at 2:30 o'clock with Mrs. H. E. Brooks, 217 7th St. North.

**Tit for Tat**  
The late Archbishop Benson once had to face criticism of the clergy as a body. It was urged that the bishops ought to see that better candidates were brought to them for ordination. Benson, with good humor, replied: "Well, you see, we bishops find ourselves in a difficult position, as we have only the laity to choose from."—London Morning Post.

**First Enthusiasm Gone.**  
Mariette was delighted when a small brother arrived at her home. However, after some weeks she began to think he was somewhat of a care, and one day when her mother told her to rock his cradle, she looked at him with disdain and remarked, "Oh, you little bothering thing!"

#### EVENING PROGRAM

Of League of Women Voters Meeting at High School Tomorrow Night

Men and women should be equally interested in the evening program of the League of Women Voters' meeting on Wednesday, Sept. 22nd, at the high school auditorium. The director of the Children's Bureau of the Board of Control, William Hodson, will discuss the important subject of "Child Welfare."

Miss Kneubuhl will give the history of and the reasons for "Political Parties."

A. D. Polk will not be able to be present, but his subject, "The Jury System," will be ably handled by Judge Walter F. Wieland.

#### CLEVER ACTRESS INTERVIEWED

Miss Goodrich Graciously Receives Dispatch Scribe and Talks Entertainly

The Dispatch reporter interviewed Miss Edna Goodrich the actress, yesterday afternoon.

Miss Goodrich received the reporter at the Ransford hotel and by her winning smile and cordial manner set him at ease.

The reporter who had not previously interviewed a celebrity of the stage opened the interview by informing the lady that he had not before had the pleasure of interviewing a celebrated actress. He then suggested that having been often interviewed by representatives from metropolitan papers, that Miss Goodrich might help him by conveying the information usually requested by them.

Following this suggestion Miss Goodrich interviewed the interviewer, asking a number of questions, the character of which indicated that the celebrated actress is quick to note the accents of the voice of those whom she meets, and is ready to pass from her own interests to the interests of others.

The interviewer was marked by a wonderful freedom from self-consciousness. Miss Goodrich is alert, thoughtful, emphatic. Each word is clearly articulated and important parts of her conversation are made

impressive by facial expressions and occasional gestures.

Reporter—"Who do you think will win in the presidential election?"

Miss Goodrich—"The Republican Party!"

Reporter—"I don't know. I thought you—".

Miss Goodrich—"I think that is the feeling of the United States. I believe that three-fourths of the people are with Senator Harding. But you never can tell."

Reporter—"What do you think of the state of this country today?"

Miss Goodrich—"Terrific—animosity on every hand. Unrest is prevalent. I see it as I travel—particularly in the West. Labor feels that it is misunderstood—that it is abused. Everyone seems ready for warfare. They act in an abrupt sort of way. They must change. They must be kind."

Reporter—"What can do this? What can bring about this change?"

Miss Goodrich—"I think that the church can do a great deal."

Reporter—"Won't you criticize the church. It's fashionable."

Miss Goodrich—"No, I will not. The people must enter the temple of God to find themselves. Everywhere we see people themselves, struggling.

all commercialism. But—these things don't come close to the people in the church. Something must be done. What is to be done? I don't know. In some way the church and the people who think right must get out and touch the people outside. They must help them."

Reporter—"Then you accept the creed of Ella Wheeler Wilcox: Just the art of being kind, is all this sad world needs."

Miss Goodrich—"No, we must have more. We must have kindness first, but we need to go further. Kindness will bring a state of receptivity. It will lead the people to God's temple if the teaching is too complex, we must by kindness make the people more receptive, teaching them to reach out to higher ideals."

In concluding the interview, the noted actress said: "I was a year in the war, and nursed for seven months in France."

#### NOTICE

A regular meeting of White Cross Lodge, No. 30, nights of Pythias, will be held tomorrow night at 8 p. m. The work will be in the rank of Page. Every member should be present.

## CALORIC

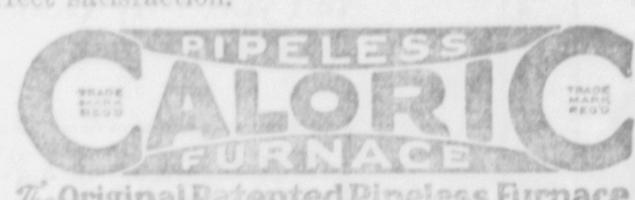

Original Patented Pipeless Furnace

#### Guarantee

Accept this as a cordial invitation to come to our store next week. We are holding a special demonstration of the Caloric Furnace. Come in and talk over your heating problem with us. We shall not attempt to sell you the Caloric—merely study your heating problem. We will not make any recommendations until we are satisfied that the Caloric will heat your entire house with a definite fuel saving.

If we decide that the Caloric can be used by you, we will install it with a money-back guarantee, assuring perfect satisfaction.

More Than  
50,000  
in Use

Practical  
Scientific  
Economical

The Caloric system of heating is an entirely new application of the principles of conveying heat. Cold air falls—warm air rises. The Caloric's one register is built to take advantage of this simple scientific fact. The outer channel sucks cold air out of the house, carries it to the bottom of the furnace, where it is purified, and passes over the radiation chamber up into the house by the inside warm air channel. The warm air is lighter and travels upward rapidly in each room so that the temperature over the entire house is practically the same, the sewing room upstairs being as cozy as the living room where the register is usually put.

We are enthusiastic about the Caloric. The remarkable results obtained by more than fifty thousand owners last year, during the coldest weather proved our every claim. We KNOW that it will make good and save 35% of your fuel bill.

Come in during Demonstration Week. You will not be obliged, and may learn many things that will mean more and better heat with a decided saving of money.

## SAFETY FIRST FOR AIR MAIL

The appalling toll of deaths in the airmail service points either to the abandonment of the service or to far more discrimination in types of machines and methods of handling than now exists.

The abandonment of the service would be a great misfortune, for it has two great reasons for its existence, the speedy transfer of mail, and the training of a corps of flyers who will be ready to act as experienced pilots if this country should enter war at any time. But thus far the number of deaths has been out of all proportion to the benefits derived. The speeding up of the mail cannot be countenanced if it be done at undue risk of human life, and the mail service as a training school for aviators will soon lack for students if the death percentage continues to increase.

The most recent deaths occurred where the all metal plane was in use. Yet the metal planes were purchased for speed, durability and safety. They have not made good on any one of the three counts. Other types of planes, however, figured in previous disasters. Why? Where does the blame rest for the long death roll? Were the planes faulty or of the wrong type, are mechanicians careless or poorly trained, were the flyers too venturesome or too inexperienced? All these things must be determined and the faults when found eliminated. The country needs the air service. It is vital to our development in peace and our safety in war, but it must be made as safe as is humanly possible. Its unavoidable dangers are numerous enough.

## COMMON HONESTY

At a time when the papers are full of crimes and thievery of various kinds, from banditry to embezzlement, it is comforting to hear of the return of the Morgan securities to the Morgan offices after the explosion. Nearly \$400,000 was missed immediately after the bomb went off. During the afternoon one by one the finders came in to the offices, men women and children, handing over as a matter of course the parcels they had found along the streets. By evening more than nine-tenths of the securities had been returned. The office people believe that the ones still missing were probably destroyed.

There is such a thing as common honesty, and most people have it. Which proves beyond peradventure

"SCRATCH UPS" are selling strong for fall and winter wear. We show 'em in plain and attractive fancy bands.

BYE &amp; PETERSON

that there is no excuse for the toleration in any community for the uncommon dishonesty which has been prevalent for the past few years.

There is talk of taking the next national census all in one day, so people will not be counted twice. But if everybody is only going to be counted once, where will a lot of these boom cities get their fancy census figures?

TALK ON SOUND GOVERNMENT  
Eminent Speaker Will Discuss Subject at Gardners Hall Monday, Sept. 27th

Brainerd is to have the opportunity to hear F. G. R. Gordon next Monday night, September 27 at Gardner hall when he will talk about Sound Government.

Mr. Gordon worked for fourteen years with Samuel Gompers, President of the American Federation of Labor, as his right hand man and is still affiliated with the A. F. of L. He was chosen by Mr. Gompers to stand with him and assist him in the debate between Gompers and Morris Hillquit, a leading Socialist of America.

Mr. Gordon is thoroughly familiar with labor questions and has spent some time in North Dakota and knows the conditions there intimately. Before the Minnesota Primary Election last June he spoke to farmer audiences in the Red River counties of Minnesota and has received many requests to return for talks this fall.

Mr. Gordon is a speaker of national reputation and one whom none of us can afford to miss.

## AMUSEMENTS

"Linger Longer Letty"

Oliver Morosco's latest musical comedy with Charlotte Greenwood as the brilliant star will be seen at the New Park Friday, Sept. 24.

In this pleasing comedy Miss Greenwood is "Letty," the kitchen fixtures in a large but wealthy family. "Letty" doesn't need to work, but her sisters and the rest of the household just seem to assume that she is a handy one and when she gets tired of being bossed around she just naturally goes on a strike, togs herself out in wild raiment and travels the pace. The play is full of rollicking dialogue that produces large volumes of laughter.

## Woman Surprises Her Friends

"After a spell of typhoid fever 7 years ago I began to suffer from indigestion and gas in my stomach and colic attacks. This gradually became so bad that my doctor advised an operation for gall stones. A friend advised me to try May's Wonderful Remedy which I did with splendid results. My friends were astonished at my rapid improvement. I have no more bloating and can eat anything I wish." It removes the catarrhal mucus from the intestinal tract, and relieves the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded at Johnson's Pharmacy and druggists everywhere.

## CITY COUNCIL HELD REGULAR SESSION

Routine Business Was Transacted—Several Fund Transferred to Proper Place

### MEETING WITH WATER BOARD

Was Arranged to Discuss Extension of Mains and Other Matters

The city council was called to order at 8 o'clock on Monday evening by the president, J. H. Strickler.

All but three of the aldermen were present. Those absent were Rusch, Hugdahl and Witham.

The minutes of the meeting of Sept. 6th were read and approved.

O. H. Graham operating a pool hall in N. E. Brainerd asked to have his license renewed. On motion of Andrew Anderson and Cordes the request was granted, subject to the approval of the mayor.

C. J. Schiel asked for a sewer connection at his home on First Avenue, N. E. and offered to pay for the same. On motion of Andrew Anderson and Lyonais the matter was referred to the city engineer, city attorney and sewer committee with power to act.

A. L. Hoffman addressed the council requesting that the small building on the S. W. corner of Sixth and Laurel streets be allowed to stand. He explained that the fire marshall had condemned the building, affirming that there were two buildings together on the corner and that he owned the smaller building. He promised to paint it and have it cleaned up, and admitted that in its present condition it is an eyesore.

A recess was taken and some of the aldermen went over to view the building in question. Upon returning the council failed to comply with Mr. Hoffman's request that the council ask the fire marshall to allow the building to remain. The sentiment of the council was expressed and was as follows: If we attempt to influence the fire marshall in this case, at some time in the future when the council asked a favorable decision from the fire marshall, he might refer them to their action on the case under consideration. Mayor Little, suggested that the matter was one to be worked out by the fire marshall and the owner of the property.

Aldermen A. G. Anderson and Cordes moved that the council and the Water and Light Board have a joint meeting on Sept. 27, 1920, for the purpose of discussing the extension of the new water mains and such other business as might rightfully come before the meeting. Carried.

Aldermen Michael and A. G. Anderson moved that the amount on hand in the musical entertainment fund, \$588.07 be turned over to the band.

And that the amount in the sinking fund, \$183.39, be turned over to the sinking fund commissioners.

And that \$3000 be transferred from the emergency fund to the Public Safety fund. Carried.

Alderman Lyonais asked about State aid for the different fire companies. Alderman Michael of the Finance committee promised to look after this matter.

Moved by Aldermen Andrew Anderson and A. G. Anderson that \$100 be left at the disposal of the aldermen of the Third ward with power to act to repair the N. E. Brainerd hose house. Carried.

Moved by Aldermen Michael and Andrew Anderson that the city engineer get bids for covering the steam pipes in the city hall. Carried. The progress of the paving on East Oak street was discussed. It was decided that the city engineer and the city attorney do all in their power through conference with those in charge of the work, to see to the completion of the job before the arrival of weather that shall make impossible further operations. Alderman Strickler also promised to do what he could to assist in forwarding the work.

The council then went into executive session.

When the doors were opened and the order of business resumed, Aldermen Andrew Anderson and Cordes moved that the council hold a special executive session on Sept. 29th, 1920, for the purpose of looking into the matter of granting increases in wages as asked by city employees. Carried.

Moved by Aldermen Andrew Anderson and Koop that final estimate for repaving on Kingwood and Kinnard streets be allowed, subject to the approval of the city engineer, finance committee and street committee. Carried.

Aldermen Koop and Andrew Anderson moved that pay rolls for new water works be allowed subject to the approval of the Finance committee and the Water and Light Board; and that pay rolls of city engineer

## NEW COUNTY HEALTH NURSE TAKES CHARGE

### GOOD ROADS ADVANCE PRICES OF LAND

Spent First Part of Last Week in Preliminary Inspection of the Schools

### CHARGE OF FAIR HEALTH BOOTH

Also Rest Room Which Was Appre-cited by Mothers—Demonstrat-ed Clothes for Babies

Miss Marie Grimes of Ft. Ripley took charge of the Red Cross County Nursing for Crow Wing County on September 13th.

Miss Grimes is a graduate of St. Joseph's hospital, St. Paul. After her graduation, she spent a year as welfare worker at the Pillsbury mills and hospital in Minneapolis. Immediately after, she came to the Northwestern hospital, in this city from whence she comes to her present position.

Miss Grimes spent the first part of last week in preliminary inspection of the several schools of the southern districts in the county. Wednesday and Thursday she spent at Pequot where she had charge of the Public Health Booth which was necessarily incomplete in its equipment from the fact that the nurse had only 2 or 3 days in which to prepare, whereas she should have had two to three weeks in which to get the necessary literature, etc. The rest tent which was also under the supervision of the booth was much appreciated by the mothers and babies.

One of the interesting features of the booth's exhibit was the "Pinless" and "Buttonless" clothes for babies, demonstrated on a life sized doll. Patterns were given away to mothers and much literature bearing on Home Economics, Health, Sanitation etc. sent out by the Red Cross and Public Health Commission. On Friday Health Clown "Jojo" gave a health talk to the children after Miss Grimes assisted by Miss Wattles, State Worker, had weighed and measured more than a hundred children. It is safe to say that from 800 to 1000 women visited the rest room and booth and benefitted by the provisions made for their comfort during the fair.

The Red Cross car was brought to frequent requisition during the 3 days for purposes connected with the fair's work. It is the gift of the Junior Red Cross of this city and is equipped with every latest improvement.

Miss Grimes had Miss Francis Brink, State Superintendent of Public Health Nurses, as a guest on Saturday.

Our County Nurse carries with her in her new work the hearty good wishes of the community for her success. She will be in her office at the City Hall every Saturday from 8:00 a. m. to 12:30 p. m.

### SAD CASE IN CITY TODAY

Husband Falls Prostrate When Told of Wife's Death During Absence

There was a very sad incident in Brainerd today. Mr. Rolen Wenger got off the train. He was returning to his home in Waldeck and knew nothing of the death of his wife who had died at a local hospital. At the train he was met by his sister-in-law, who upon being asked by him how his wife was, had to inform him that she was dead. The news was so sudden that the hearer could not withstand the shock, and fell to the platform. He was lifted up and with assistance came over town. It was necessary to halt at one of the stores on the way to the undertaking parlor.

and some freight bills be allowed subject to the approval of the Finance committee.

Motion was made that the council adjourn.

### Sweeney Says:

Phone 939 722 Laurel St.

### GOOD ROADS ADVANCE PRICES OF LAND

Mrs. Anna Kamath, on Oak St. sold her farm through Dawes Land Co., one hundred and sixty acres for \$1600. This farm is located on the new payment, and the high price paid should encourage the building of more good roads.

### BRAINERD'S ODDEST STORIES

About ten o'clock one evening the latter part of last week a certain married man was driving from Ft. Ripley to Brainerd, when a young lady asked him for a ride. Every thing went fine until reaching Barrows, when the gears began to slip, the young lady got out and pushed while Mr. Married Man stayed in the car, shifting gears and working the steering apparatus until at last the car refused to go any further. There was nothing to do but walk home and carry an abundance of luggage the young lady had along, so, with the thoughts that a car might overtake them, they started on, but no such luck. It seemed to him there was no end to walking, her home was in a different part of town than his, and it was no more than good manners that he should accompany his passenger to her door with her baggage. So tired and weary from his hard day's work and long walk, he reached his home at one o'clock thoroughly disgusted and declared that if ever a person in skirts should ask him for a ride at that time of night again, he would explain to them that there is a train coming this direction twice a day that has better accommodations than he has.

Mr. Married Man told this joke on himself to one of his best friends.

### Don't Prod Your Liver to Action

NR Overcomer Biliousness, Constipation, Sick Headache, Quickly. No Gripping or Pain. Guaranteed.

The organs of digestion, assimilation and elimination—the stomach, liver and bowels—are closely allied, and the proper action of any one of them greatly depends upon the correct functioning of all the others. "Whipping" your liver into action with calomel or forcing your bowels with irritating laxatives or strong cathartics is a great mistake. A safer plan is strengthening and toning the whole digestive and eliminative system with Nature's Remedy (NR Tablets), which not only brings immediate relief but also a lasting benefit. It acts on the stomach, liver, bowels and kidneys, improves digestion and assimilation, overcomes biliousness, corrects constipation and quickly relieves sick headache. A weak system is rapidly cleansed and purified for once; stomach, liver and bowels working together in vigorous harmony, and you will not have to take medicine every day—just take one NR Tablet every day and keep your system in good condition and always feel your best. Remember it is easier and cheaper to keep well than it is to get well.

Get a 25c box and try it with the understanding that if it does not give greater relief and benefit than any bowel or liver medicine you ever used or no pay. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

### Come to Our Tea-Party

We have with us Miss Bernice Lowen of Chicago, Illinois, an expert home economist, who will conduct a demonstration on Hughes Electric Ranges.

This demonstration will take place between the hours of 10 o'clock in the morning to 6 at night every day this week, Saturday until 8. You should make it a point to attend this demonstration and study electrical cooking as this method is prevailing the country, due to the difficulty we are having in obtaining coal, and the rapid decline of gas.

### NORTHERN HOME FURNISHING CO. INC.

SUCCESSORS TO D. M. CLARK & CO.

PETE, LISTEN HARD!

Buffalo, N. Y.  
—on a Saturday!

When it's your good luck to butt into Buffalo, go to that store on Ellicott Square where the dark haired clerk slips out Camels with both hands—plus a tank of talk on the side!

The thing that tickled me most was his sureness that I was after Camels! As soon as I had my coin on the counter and before I could say a word, he flashed me a package of Camels! When I asked him how he knew I wanted Camels, he took a pull on his laugh stock and soaked me with this:—"Can't tell you, old mayonnaise—I'm dressing!"

After he had waited on several other men who drew their Camels like I did, this salesman said:—"For a fact, most men here smoke Camels. They hit the popular taste! Camels have the right body and the right mildness and the right flavor! They're ALL right!"

And, Pete—he added this without a stutter: The more I see of the world and the more I learn about cigarettes, the more respect I have for Camels and Camels quality! I don't believe a better cigarette could be made at any price!"

And Pete—oh, Pete—listen to this gem:—"And it's an odds on bet I'm a good judge. I've tried 'em all—and my taste is the jury box!"

If that isn't a swell line of Camel talk, I'll sell my shoes! But, Peter, that salesman is right! It's my belief that no cigarette in the world can be favorably compared with Camels—they're so smooth and mellow and delightful!

I'm herewith slipping between the sheets, old book. So, you tell 'em the rest—you're so full of knowledge!

Sincerely

Shorty.

## ANTI-ALCOHOLISTS GATHER AT CAPITAL

### WORLD SCIENTISTS, ECONOMISTS AND "DRY" ADVOCATES AT TEND CONGRESS

(By United Press)

Washington, Sept. 21.—Nearly 1,500 official representatives from practically all civilized nations and delegates from all important temperance societies in the world met here today in the opening session of the Fifteenth International Congress Against Alcoholism.

World-known scientists, economists, physicians, psychologists and criminologists will present in a six day program this week an exhaustive, scientific indictment of John Barleycorn and all his works.

Every variety of opinion on alcoholism and the proper methods for regulating liquor traffic is held by the delegates.

French representatives of the Ligue Contre l'Alcool conceive prohibition as applying to brandies and cognac—but not as to light wines. Some of the Teutonic representatives except beer, and several Scandinavians favor the "Bratt system"—consisting in a "liquor card" system and licensed drinking clubs.

A remarkable attendance is scheduled at this year's congress, countries and delegations being generally anxious to secure data as to the success of complete prohibition here.

Although the congress is expected to give a great impetus to the anti-alcohol campaign throughout the world, no definite organization to secure world-wide prohibition will be formed here. In addition to the varying views of the members, the congress regards prohibition as a purely national problem.

Americans in charge of the affair call attention to the predominance in the membership of independent scientists, economists and sociologists of repute, and the comparative absence of clergymen and so-called professional "temperance advocates."

The Fifteenth Congress is a postponement of one prevented by the outbreak of the world war in 1914.

Since then temperance victories have been gained, notably the "eighteenth amendment" in the United States; various "war prohibition" enactments in European countries; complete prohibition in Finland, 1919; local option granted in Denmark and Scotland; "light wines only" prohibition in Norway, 1919, and establishment of the "Bratt system" in Sweden.

Since the last congress several new countries have come into being as a result of the war. Practically all have representation in the congress.

In spite of the fact that we are still technically at war with Germany and Austria, these latter countries will have several representatives at the Washington congress.

Prof. Dr. J. Gonsor of Berlin, is a member of the executive committee in charge of the affair and will deliver an address.

Prominent foreign names on the program are: Dr. Ley, of the University of Brussels; Dr. Legrain, Paris; Dr. P. Amatit, Florence, and Dr. Eudo Monti, Turin.

An interesting figure will be Dr. M. Hellenius-Seppala, the "Kramer" of Finland, the only other country with America to have absolute prohibition.

Americans included on the program are: William Jennings Bryan, Attorney-General Palmer, Secretary of Navy Daniels, and Dr. Harvey W. Wiley.

The president of the congress is Premier Jonkheer, Ch. Ruijs de Beerenbrouck, of Holland.

The chairman of the American executive committee who made arrangements for the congress is Edwin C. Dinwiddie, formerly of the Anti-Saloon league.

### MacSwiney Began 40th Day of Fasting With Little Change

(United Press)

London, Sept. 21.—The fortieth day of fasting for Lord Mayor MacSwiney began today with little change in his condition. Sinn Fein bulletins again reported him exceedingly weak.

Several Sinn Fein leaders were indignant at the report that they had hidden the real condition of the hunger striker. The London Evening News said MacSwiney was surprisingly well but sulky and disinclined to answer questions. The News said the mayor was able to sit up and assist in his ablutions and read newspapers interestingly.

Rumors of secret feeding were revived as foes and friends marveled at the condition on the fortieth day of the hunger strike. Friends hotly declared water and medicine to prevent stomach pains were the only things that had passed his lips.

## NORTHWEST NEWS

(United Press)

Minnesota Educational Situation

St. Paul, Sept. 21.—Detailed reports on the educational situation in Minnesota are expected to be compiled by State Superintendent of Education J. M. McConnell, within a few days.

County superintendents in every country are requested to report on the teacher supply, student enrollment, school room facilities and housing conditions in their districts.

Indications are the teacher shortage has been largely overcome through increases in pay this year, it was said.

Many teachers who left the profession during the war are returning to their desks, since salaries have been increased. Country schools in the northern counties, however, are reported having difficulty filling rooms.

The enrollment of students in practically all branches of education, it is believed, will surpass all previous records. The percentage of increase in enrollment this year, probably will be greater than ever before.

Reports will show a big shortage of school rooms and unusually crowded conditions in almost every section of the state, officials believed. Lack of funds to build, under conditions almost prohibitive is responsible for the prospective shortage of rooms and resultant crowded conditions.

Scores of letters and reports have been received showing congested housing conditions. Many teachers, in towns away from home are paying big rentals for rooms, and some are unable to find satisfactory homes, it was said.

## QUACK'S DOOM SEEN IN NEW MEDICAL BILL

(United Press)

London—(By Mail)—The man who comes to England to try to sell a box of pills which will cure sciatica, lumbago, rheumatism, backache, tired feet, scarlet fever and measles, is going to have a sorry time.

The proprietary medicines bill has arrived to put a stop to his oratory. "Quack" remedies are to be prohibited and all proprietary preparations and appliances are to be registered complete with full description as well as the owner's name.

Some remedies are prohibited altogether. Among these come remedies for cancer, consumption, lupus, deafness, fits, epilepsy, diabetes, paralysis, locomotor ataxy, Bright's disease and rupture. These may not be sold or offered or advertised for sale, and the prohibition applies to "any medicine or surgical appliance of any kind whatsoever purporting or stated directly or by implication to be effective for the prevention, cure, or relief of the diseases named." Other diseases may be added at the discretion of the minister of health.

Altogether, the bill covers every trick of the "quack doctors" trade, right down to the advertising of testimonials. Very soon all those philanthropists who have been administering mysterious pills for England's ills will have to pack their grips and seek more remunerative climates.

## FOUR POLITICAL CONVENTIONS HELD AT ONE TIME

(United Press)

Madison, Wis., Sept. 21.—The Wisconsin state house here was the center of the political stage of the commonwealth today when four political platform conventions—republican, democrat, socialist and prohibition—got under way at high noon as provided by law.

While republicans spent most of the night and morning in caucus trying to iron out factional rows, delegates to the other three meetings spent the time sight seeing. The democrat, socialist and prohibition meetings are cut and dried affairs.

## Partial Demobilization of Polish Forces is Contemplated

London, Sept. 21.—Reports received here today from Polish sources said a partial demobilization of Polish forces was contemplated. Riga dispatches said Prince Sapieha, Polish foreign minister, had notified the Lettish foreign minister, that Polish-Lithuanian peace conference will be continued in Riga. They were begun in the Lettish city of Kalvaria.

The Polish-Lithuanian conference will be supervised by a commission appointed by the council of the league of nations to see that all terms proposed by the council are fulfilled.

### Arctic Cold Misunderstood.

There is a great deal of misunderstanding relative to the cold of the Arctic regions. The absence or presence of water and altitude are important factors in determining temperature. As the altitude increases going North, the bite of the weather is lessened so that there is little or no inconvenience to be experienced from the cold.

### The Brave Man.

The brave man seeks not popular applause.—Dryden.

### United States District Court, District of Minnesota, Fifth Division

In the matter of John H. Wunderlich, Bankrupt, in Bankruptcy.

To the creditors of John H. Wunderlich, of Ironton, in the County of Crow Wing and District Aforesaid, Bankrupt.

Notice is hereby given that on the 8th day of September, A. D. 1920, the said John H. Wunderlich was duly adjudged a bankrupt and the first meeting of creditors will be held at the office of the undersigned, 606 Paladio Building, Duluth, Minnesota, on Friday the 8th day of October, A. D. 1920, at 11 o'clock a. m., at which time the creditors may attend, prove their claims and elect a trustee, examine the bankrupt and transact such other business as may properly come before the meeting.

Dated Duluth, Minnesota, September 20, 1920.

WILLIAM O. PEALER,  
Referee in Bankruptcy.

### Ostrich Eggs Slow to Spoil.

Ostrich eggs keep a long time before spoiling, according to a report by M. H. Junelle to the French Acclimatization society. He tells of ostrich eggs sent to him from Telmar on August 22, 1919, which reached him at Marseilles on December 12 still perfectly good. M. Hermentier had eggs that he opened and into which he dipped as he needed them; this for several days.

La Nature suggests that if a regular supply of ostrich eggs in large enough quantities could be arranged for it would be a boon to the confectionery and baking trades as one ostrich egg contained considerably more than a quart of goodness.

La Nature suggests that if a regular supply of ostrich eggs in large enough quantities could be arranged for it would be a boon to the confectionery and baking trades as one ostrich egg contained considerably more than a quart of goodness.
